THE MINISTER OF STATE IN THE MINISTRY OF COMMERCE AND INDUSTRY (SHRI RAJIV PRATAP RUDI): (a) US President has on 5th March, 2002 decided to impose safeguard duties on a broad range of steel products imported into USA. However, the developing countries *including India* have been excluded from the remedy action as per the Safeguards Agreement, except in the case relating to import of *carbon flanges from India.* In respect of flanges safeguard duty of 13%, 10% and 7% respectively have been imposed for three years and one day which is applicable from 20th March, 2002. This may have negative impact on our exports of the item to USA even though it is too early to make a quantitative estimate of the extent of the impact of the Safeguard action.

(b) Yes, Sir.

(c) and (d) The anti-dumping investigations can be initiated as and when the domestic industry files a fully documented petition to the Designated Authority with sufficient evidence of dumping, injury and a casual link between dumping of imported goods and injury to the domestic industry. The effects of trade distortion caused by dumping can be removed by way of imposing anti-dumping duty. Antidumping investigations concerning imports of cold rolled flat products of stainless steel from European Union, Japan, USA and Canada arc currently being conducted where provisional anti-dumping duties have already been imposed on 28.12.2001.
